HYDRA FACIAL

Non-Laser Skin Resurfacing

- Hydra facial is the newest advancement in technology, offering a non-invasive, non-laser and safe treatment method that can remedy all types of skin difficulties from ageing related problems to acne prone skin, hyperpigmentation and the improved appearance of brown spots.
- This hydradermabrasion procedure combines clearing the skin, through cleansing, exfoliation and extraction with hydration and antioxidant protection resulting in a detoxified, refreshed and beautiful complexion. There will be no more congested pores or dehydrated skin. The hydra facial treatment is committed to accomplishing a totally replenished and nourished appearance, from even the first treatment.

HOW DOES THE TREATMENT WORK?

- Joining two processes into one, the Hydra Facial removes dead skin cells and extracts impurities whilst simultaneously drenching the skin essential serums that cleans, hydrate and moisturize, leaving it completely resurfaces and smooth.
- Expect a non-irritating treatment that soothes and feels like a cool paintbrush gliding over your face, resulting in instant visible results. The facial is great for all skin types, but your treatment will be tailored and customized to best suit your

skin condition and individual needs ensuring you achieve the most phenomenal results, as promised.

THE BEST PART?

- The treatment lasts only 15 minutes and has zero downtime or discomfort. So if you want to reclaim your youthful skin, you can book your session and be back at your desk or on the way to school pickup with makeup applied before an hour has passed. Whilst you will almost certainly notice a result after just one effective session, your dermatologist will recommend a package of six treatments and after the first bundle sessions, you may want to maintain your result with Hydra Facial every 2 to 4 weeks.
